Liste de préconisation

Afin de mieux vous servir et de vous permettre d'obtenir la meilleure autonomie possible, HAULOTTE Services a élaboré 2 types de listes de pièces de rechange pour chacune de vos machines :

1) Les listes de première urgence

Ce type de liste inclut les pièces identifiées comme étant à l'origine de pannes remettant en cause l'utilisation ou la disponibilité de votre machine. Les listes de première urgence sont généralement livrées dans les boîtes ci-dessous afin de minimiser leur encombrement et vous permettre un rangement rapide selon le type de machine. Compte tenu de leur faible valeur, nous vous recommandons vivement le stockage de ces listes.

2) Les listes de maintenance

Ce type de liste inclut la liste de première urgence et une sélection supplémentaire de pièces stratégiques pour vous assurer pleinement de la disponibilité de votre machine. Merci de prendre contact avec votre interlocuteur HAULOTTE Services habituel.

Recommended Spare parts list

In order to ensure your total satisfaction, along with a freedom and independence in maintaining your machine, HAULOTTE Services has developed two different levels of recommended spare parts list.

1) Emergency recommended spare part list

This list contains the more common spare parts that may be required, and was developed to minimise breakdown delays and maximise machine utilisation. With a specific list produced for each range of machine, this list is supplied in a convenient carry box (shown below), minimising bulk and allowing fast access for when required. With excellent pricing being offered, we strongly recommend having this kit on hand at your office or workshop.

2) Full recommended maintenance spare parts list

This more comprehensive list includes the same items at our emergency list, but also includes a strategic selection of parts used in preventative maintenance. Please contact your usual HAULOTTE Services representative for further detail.
